

BULLETIN

Storefront Numbering/Rear Door Requirements

(11/09)

Tenants are required to install in accordance with the following details.

Vinyl applications are to be professionally applied without bubbles or wrinkles and must be installed so as to not appear uneven, unlevel or otherwise not straight or improperly spaced. Improperly installed vinyl is subject to removal and re-application at tenant's sole expense. Vinyl application is subject to approval by mall management.

All vinyl applications in this bulletin are to be Individual letters/numbers cut to shape, versus printed block.

Follow all manufacturers' instructions for all vinyl application procedures.

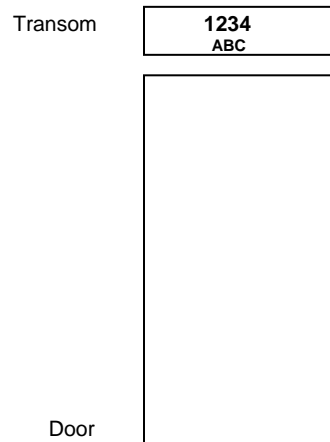

Reference:

- NFPA 1 10.12.1.2 and 10.12.1.2.1
