

BULLETIN

Permitting Tips

(05/25/10)

This bulletin is to make you aware of issues that have been identified by the City or other retailers and suggest Tenant's architect and engineer pursue further as it relates to Tenant's contract documents.

- For additional information regarding City websites and other permitting information contact them directly at the following web site:

Building Department

http://dsnet.co.clark.nv.us/dsweb/building_services.html

Health Department

<http://clarkhealth.net/>

- Average permit turnaround time, with the use of a permit expeditor is 2-3 weeks. If a permit expeditor is not used, the process may take up to 3 months.
- The Landlord strongly suggests that Tenants employ a local expeditor that is familiar with the City's requirements. Note: The Landlord does not require any particular expeditor, however, those listed below have been used by Tenant's in the past:

Rami Atout
Creative Design Architecture
1855 Village Center Circle
Las Vegas, NV 89134
702.256.6663
rami@cdarch.com

- **UNION AFFILIATED GUIDELINES**
In an effort to establish acceptable and unified construction and quality and productivity standards, the Landlord strongly recommends that all union trades, traditionally and customarily performing construction crafts be engaged to promote project wide continuity.

This shall not serve as a limitation to a Tenant's right to employ the most qualified low bidder for a construction contract. However, Tenant shall take all necessary action to avoid labor disputes and difficulties on the project and shall do all things to avoid work stoppage or delay on account thereof, regardless of whether the impact is to the Tenant, Landlord or other Tenants. In an event of work stoppage, Tenant will cooperate with Landlord to remove the source of the work stoppage at Landlord's sole discretion so that the project shall be completed on schedule in a cost efficient manner as initially contemplated.
