

Storefront Pop-Outs

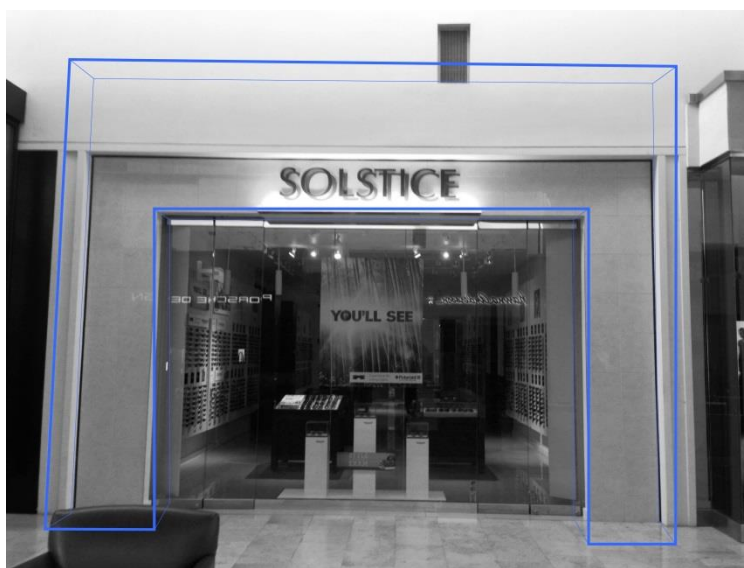

SouthPark – Charlotte, NC

In mall locations where the existing condition storefront is lower than the rectangular return air grille, tenants shall pop out their storefront with the following parameters:

- Top of storefront finish material must align with bottom of air return grille. Finishes shall not exceed B.O. grille height.
- Tenant shall not extend more than 24" beyond face of common area bulkhead wall to achieve pop out look.
- If the adjacent tenant(s) are already popped outward into the common area, new Tenant's storefront pop out projection distance shall match the distance of the adjacent tenant(s). Contact Tenant Coordinator on a case by case basis.
- A preliminary storefront elevation and rendering shall be submitted to the Tenant Coordinator for preliminary approval prior to Construction Document submission.

HEIGHT INCREASE

HEIGHT INCREASE AND PROJECTION INCREASE
